

# PLS 560

pea, english

The long pointed pods of PLS 560 fill to the tip with 10-12 dark green berries of excellent flavor. These light green pods really stand out against the dark blue-green foliage. This variety holds upright throughout the season, making harvest quick and rewarding.

## FEATURES

- Disease resistance to Fusarium Wilt Races 1 & 2, Powdery Mildew, and Aphanomyces RR

## CULTURAL SHEET

### Properties

|                                |              |
|--------------------------------|--------------|
| Season                         | Mid-Season   |
| Approx. Days to Maturity       | 67           |
| Approx. Heat Units to Maturity | 1430         |
| Node at First Bloom            | 15           |
| Vine Type                      | Afila        |
| Average Sieve Size             | 3.70         |
| Average Plant Height           | 18-22 inches |
| Average Pods Per Node          | 2            |
| Average TSW                    |              |

### Disease Resistances

|                     |            |
