

# PLS 566

## pea, english

Recent trials of PLS 566 have shown its capability to return tremendous yields. These long, light green pods really stand out against the strong, dark blue-green afile vine. With two pods per node and 10-12 berries per pod, you'll be very pleased with this sweet pea!

### FEATURES

- Great yielder
- Excellent disease package

### CULTURAL SHEET

#### Properties

Variety Number	
Variety Name	PLS 566
Species	Pisum sativum
Common Name	Pea
Family	Legume
Season	Mid-Season
Approx. Days to Maturity	64
Approx. Heat Units to Maturity	1460
Node at First Bloom	13-14
