

# BAMBINO F1

Pepper, Jalapeno

## About:

A highly productive, small-medium sized (2.5") jalapeño originally developed for the processing popper market for growers in hot and humid conditions. It can be dual purpose for both the processing and fresh markets. This variety has a compact plant with an excellent disease package, that produces high yields of thick walled, dark green, very uniform fruit. It was developed for open field productions and has resistance to BLS 1-3.

## FEATURES

- Disease resistance to BLS 1-3
