Jefferson, WI 53549 

## About:

*Pot Tomato Classics is our series of well-known, compact tomato plants with a high yield and a great taste. Clearly visible fruit above the leaves makes the models in the Pot Tomato Classics series easily saleable.*

The Donna F1's trailing growth habit makes it ideal for large containers and hanging basket. The Donna F1 - Yellow produces abundant yellow fruit. The Donna F1 - Yellow also quickly produces new fruit after the first harvest, so the plant will keep on giving all season long. The weight of an individual tomato is between 8-12 g / 0.2-0.4 oz and its brix is around 8.

## GROWING DONNA ORANGE F1

- Crop time from young plant until red fruit is 10-12 weeks
- Can be grown next to all standard tomato types

| TRAITS/ DISEASE INFO            | DESCRIPTION  |
