

SEQUOIA F1

broccoli

Sequoia F1 is an extra early season variety. It has strong emergence that produces a plant with vigorous growth. The heads are high and dome shaped with dark green color reaching sizes in excess of 30cm. The weight of the head can range from 750g to 2.2 lbs. Sequoia F1 has excellent holding capacity and has shown to hold after harvest up to 7 days. This variety is an excellent producer of high quality heads.

FEATURES

- 58 Days to maturity
- Tight, compact heads
