

BELLEROSE F1

tomato, indeterminate pink

Bellerose F1 is an indeterminate, medium maturing, 185-200 gr tomato. It has a round shape, and a long shelf life. Performs well in both the open field and protected culture. This variety doesn't crack easily and is great for canning or slicing.

FEATURES

- Long shelf life
- Resistance to TSWV, TYLCV, Ep, Va, Aal, N, Fol R1 & 2, and IR to EB.

CULTURAL SHEET

Properties

Variety number/name	Bellerose F1
